ShowBloom[®]

with the BGY advantage

ShowBloom – Your Path to The Winners Circle!

You've put a lot of effort into selection, fitting, feeding, and going to the right show, but winning against tough competition, and achieving the full genetic potential of your animal requires an edge. ShowBloom can help! ShowBloom has proven for years to help produce winners in the show ring and has given champion after champion the edge needed to achieve the winning results.

ShowBloom is formulated on F.L. Emmert's proprietary brewer's yeast. Brewer's yeast - nature's near-perfect food - contains essential amino acids, 14 minerals, and 17 vitamins. It is one of the best natural sources of the B complex vitamins: thiamin, riboflavin, niacin, B6, pantothenic acid, biotin, and folic acid. It is also high in minerals, including chromium, zinc, iron, phosphorus, and selenium. It contains beta-glucans and ribonucleic acid (RNA), which improve and aid digestion. Brewer's yeast is a source of high-quality digestible protein and is used worldwide to improve palatability, digestibility, muscle development, skin and hair coat, hoof condition, and overall animal health and well-being. We balance our high-quality ShowBloom supplement with additional essential vitamins to ensure animals reach their full genetic potential, performance, and look like the champions they are.

Benefits:

ShowBloom gives you the edge to keep your animal and feeding program at the optimum winning level.

Encourages consistent feed intake, utilization, and fiber digestion

- Improved gut health and function means optimum growth and development with a smooth, well-defined body condition

Aids muscle development and firmness

- Helps animals reach their full potential, increasing your chance of winning

Improved overall health and condition

- Healthy, growing animals means more champions

Creates "bloom" by increasing energy to help maintain muscle and keeps skin, hair, eyes, mouth, and liver healthy

You will notice:

- Improved condition, finish, deposition of lean muscle - "bloom for show animals"
- Slick, shiny coats with strong hooves
- Better appearance, better performance, more champions

ShowBloom can be added to show beef or dairy cattle, goats, sheep, and swine for added performance and benefit. Many customers preparing their animals for the show ring feed ShowBloom from day one, but especially during the 90-day period prior to the show.

Feeding Rate:

Adjust feeding notes according to condition and size of the animal.

General Guidelines (Per head / Per Day)	
Cattle	8 oz.
Horses	4 - 8 oz.
Swine	2 - 4 oz.
Sheep & Goats	3 oz.
Rabbits	
Dwarf, compact breeds, Cavies	0.5 oz.
Six Class	1 oz.
Giants	1.5 oz.

Note: ShowBloom is a supplement designed for feeding as part of a complete diet. Consult with your nutritionist or veterinarian for a complete feeding program for your livestock.

ShowBloom, a unique, superior brewer's yeast supplement, provides naturally balanced, essential vitamins, minerals, amino acids, and digestive aids that enable animals to excel in growth, performance, and competition.

"You Will See the Difference!"

The F.L. Emmert Company has been in the animal ingredient nutrition business since 1881.

We offer select, natural solution brewer's yeast-based products to the performance animal and show industry as well as production agriculture and pets that promote animal productivity, performance, efficiency, and health.

F.L. Emmert's products are developed from specially-selected brewer's yeast and unique processing to exact quality assurance standards. Our products are natural sources of proteins, B complex vitamins, organic minerals, amino acids, beta-glucans, and mannans to cost-effectively maximize animal genetics, performance, and health status.
